# Art Education and Sustainability, InSEA Europe Webinar

Location

Online event

## Program

- **Introduction**, Ernst Wagner.
- **Art for ESD: Local or international artworks? What fits best?** The Maltese experience, Charmaine Zammit, Malta.
- **The educational program at the Biennale Larnaca**, Costas Mantzalos and Victoria Pavlou, Cyprus. We "could bring an interesting aspect together with a joint presentation. We organized an educational program based on CARE last week in the context of Biennale Larnaca and we could use contemporary artworks from the Biennale."
- **Engagement for sustainability by learning through the arts**, Martha Ioannidou, Thessaloniki, Greece. This presentation will introduce exemplary scenarios how to bridge artworks with Sustainable Development Goals (SDGs), highlighting possible common approaches of Art Education & Education for Sustainable Development. We will explore learning opportunities and propose ways to solve problems that affect the school or the broader community in the context of Sustainable Development.
- **Practice-oriented art and sustainability**, Harriet White, Exeter, England. Looking to art for inspiration in a sustainability context - what relevant themes can be (re)seen? We will explore some UK examples from the CARE project.
- **Conclusions**, Ernst Wagner.
